

BROAD RETAX

Broadband waveplate

1/4 retardation at whole visible range.

When the polarization go through this product, this product gives it.

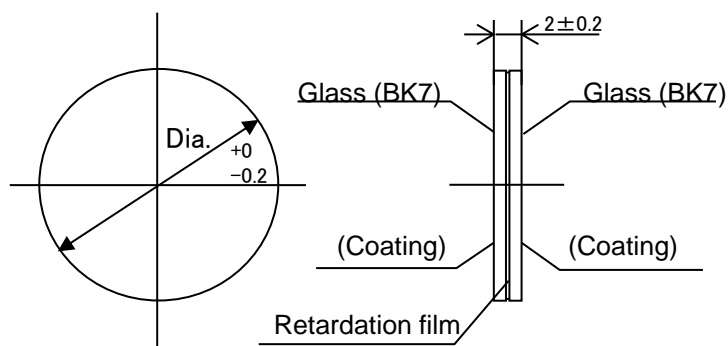

Model No. **B-RETAX-1/4 λ -D**

↳ Diameter

Specification of standard product

Glass	BK7
Diameter	φ10mm
	φ20mm
	φ30mm
Thickness	2mm
Retardation tolerance	1/4 λ ± 13nm (λ = 450nm, 500nm, 550nm, 590nm, 630nm)
AR coating	Both faces multi coating

Dimension

*It is possible to satisfy customer's request for special specification.

Reference data

Retardation of each wavelength
